PROFESSIONAL PROFILE

4th-year Computer Engineering student (AI track) at EHEI Oujda, with a Bachelor's degree in Data Analytics and Business Intelligence. Hands-on experience in LLM fine-tuning, RAG, OCR, deep learning, voice deepfake detection and full-stack development, from data preprocessing to deployment.

TECHNICAL SKILLS

Languages:	Python, SQL, JavaScript, TypeScript, Java, C
AI & Data:	Machine Learning, Deep Learning, LLM, Fine-tuning (LoRA), RAG, OCR, AI Agents, Data Mining, Data Analysis, Predictive Analytics, ETL, Power BI
Frameworks & Libraries:	PyTorch, Hugging Face Transformers, TensorFlow, Scikit-learn, Pandas, NumPy, React, Next.js, NestJS, Django, FastAPI, Electron
Web:	HTML5, CSS3, Tailwind CSS, PHP, REST API, SEO, UI/UX
Databases & Tools:	PostgreSQL, MySQL, SQLite, Git, GitHub, VS Code, Google Colab

PROFESSIONAL EXPERIENCE

AI Intern — *LEADZ Tech Services, Rabat* April 2026 – June 2026

- Fine-tuned a conversational LLM for Moroccan Darija and multilingual interactions; evaluated response quality and optimized inference performance.
- Developed a RAG pipeline, integrated OCR for intelligent document processing, and contributed to an AI-based conversational platform.

Machine Learning Intern — *CHU Mohammed VI, Oujda* April 2025 – May 2025

- Developed a Deep Learning solution to assist in detecting breast anomalies on mammograms, including image preprocessing and model evaluation.

Web Development Intern — *Regional Health Directorate, Oujda* July 2024

- Designed a responsive institutional website with information management, an accessible interface, and improved organization of public content.

SELECTED PROJECTS

Gold Agent — Multi-Agent Trading Research System Python, FastAPI, Electron, LLM Agents, AWS

- Built a twelve-agent system with an LLM news read, 12 fixed risk rules and a full audit trail, run 24/5 on AWS on a fake-money MT5 account; backtests and forward tracking show no winning edge yet.

Real or Clone? — AI Voice-Clone Scam Detector PyTorch, XLS-R, FastAPI, NVIDIA GPU

- Built in one day at the GOMYCODE × NVIDIA hackathon: fine-tuned Meta's XLS-R 300M on 51,000 English and French WhatsApp-style voice notes to detect cloned voices (96.1% accuracy on unseen voices, 2.4% error rate on unseen generators); mobile web app, open source.

OMNIA — Agentic AI Concierge & Marketplaces React, NestJS, PostgreSQL, Prisma, Groq

- Built a live AI concierge that plans stays, food and rides across three marketplaces from one request.

Professional Websites: Kami Coffee, Mito, Le Jump Next.js, React, SEO, UI/UX

- Developed responsive websites with booking, interactive interfaces, and performance and SEO optimization.

EDUCATION

Engineering Degree in Computer Engineering – Artificial Intelligence (4th year) 2026 – 2028
EHEI Oujda

Bachelor's Degree in Data Analytics and Business Intelligence 2025 – 2026
École Supérieure de Technologie (EST), Oujda

University Diploma of Technology (DUT) in Business Intelligence and Machine Learning 2023 – 2025
EST Oujda

Baccalaureate, Physical Sciences 2023

LANGUAGES

Arabic — Native language **French** — Professional proficiency **English** — Professional proficiency

INTERESTS

Artificial Intelligence Data Science Football Technology
